# WAREHOUSE LABELS & SIGNS

## WAREHOUSE SIGNS

From Long Range Retro Reflective signs to Dock Door and Aisle Signs, ID Label offers solutions for all your bulk storage identification needs. We manufacture a proprietary blend of PVC which won't crack or fade in either indoor or outdoor applications.

## RACK LABELS

A durable polyester rack label can help insure consistent bin location year after year. ID Label produces (and installs) over 2 million rack labels each year and offers the highest quality laminated solution. We offer 9 different colors for tier identification, as well as special adhesives to deliver cover up solutions and address freezer environment solutions.

## PREPRINTED LPN LABELS

Preprinted Pallet ID labels saves significant time and money compared to print-on-demand thermal transfer solutions, not to mention other benefits. No duplicates. No missing numbers. Let ID Label "Run and Hold" your pallet ID labels for you, provide same day shipping and save you 30% or more in the process.

## NATIONAL INSTALLATION SERVICES

ID Label offers the most comprehensive installation services in the industry. With over 40 years of combined experience, our installation team provides nationwide coverage that will deliver a great value, guaranteed quality and on time solutions.
